

**Wilson provides
the best solution**

We Fix Weak Cellular Signal: **Fleet Vehicles**

Fleets come in all shapes and sizes

Oil & Gas Field Vehicles

Law Enforcement & First Responders

Large Fleets

**WESTERN
STATES**

ELECTRICAL CONSTRUCTION INC.

Industrial • Commercial • Residential

**Newport
265-8067**

**Lincoln City
994-9014**

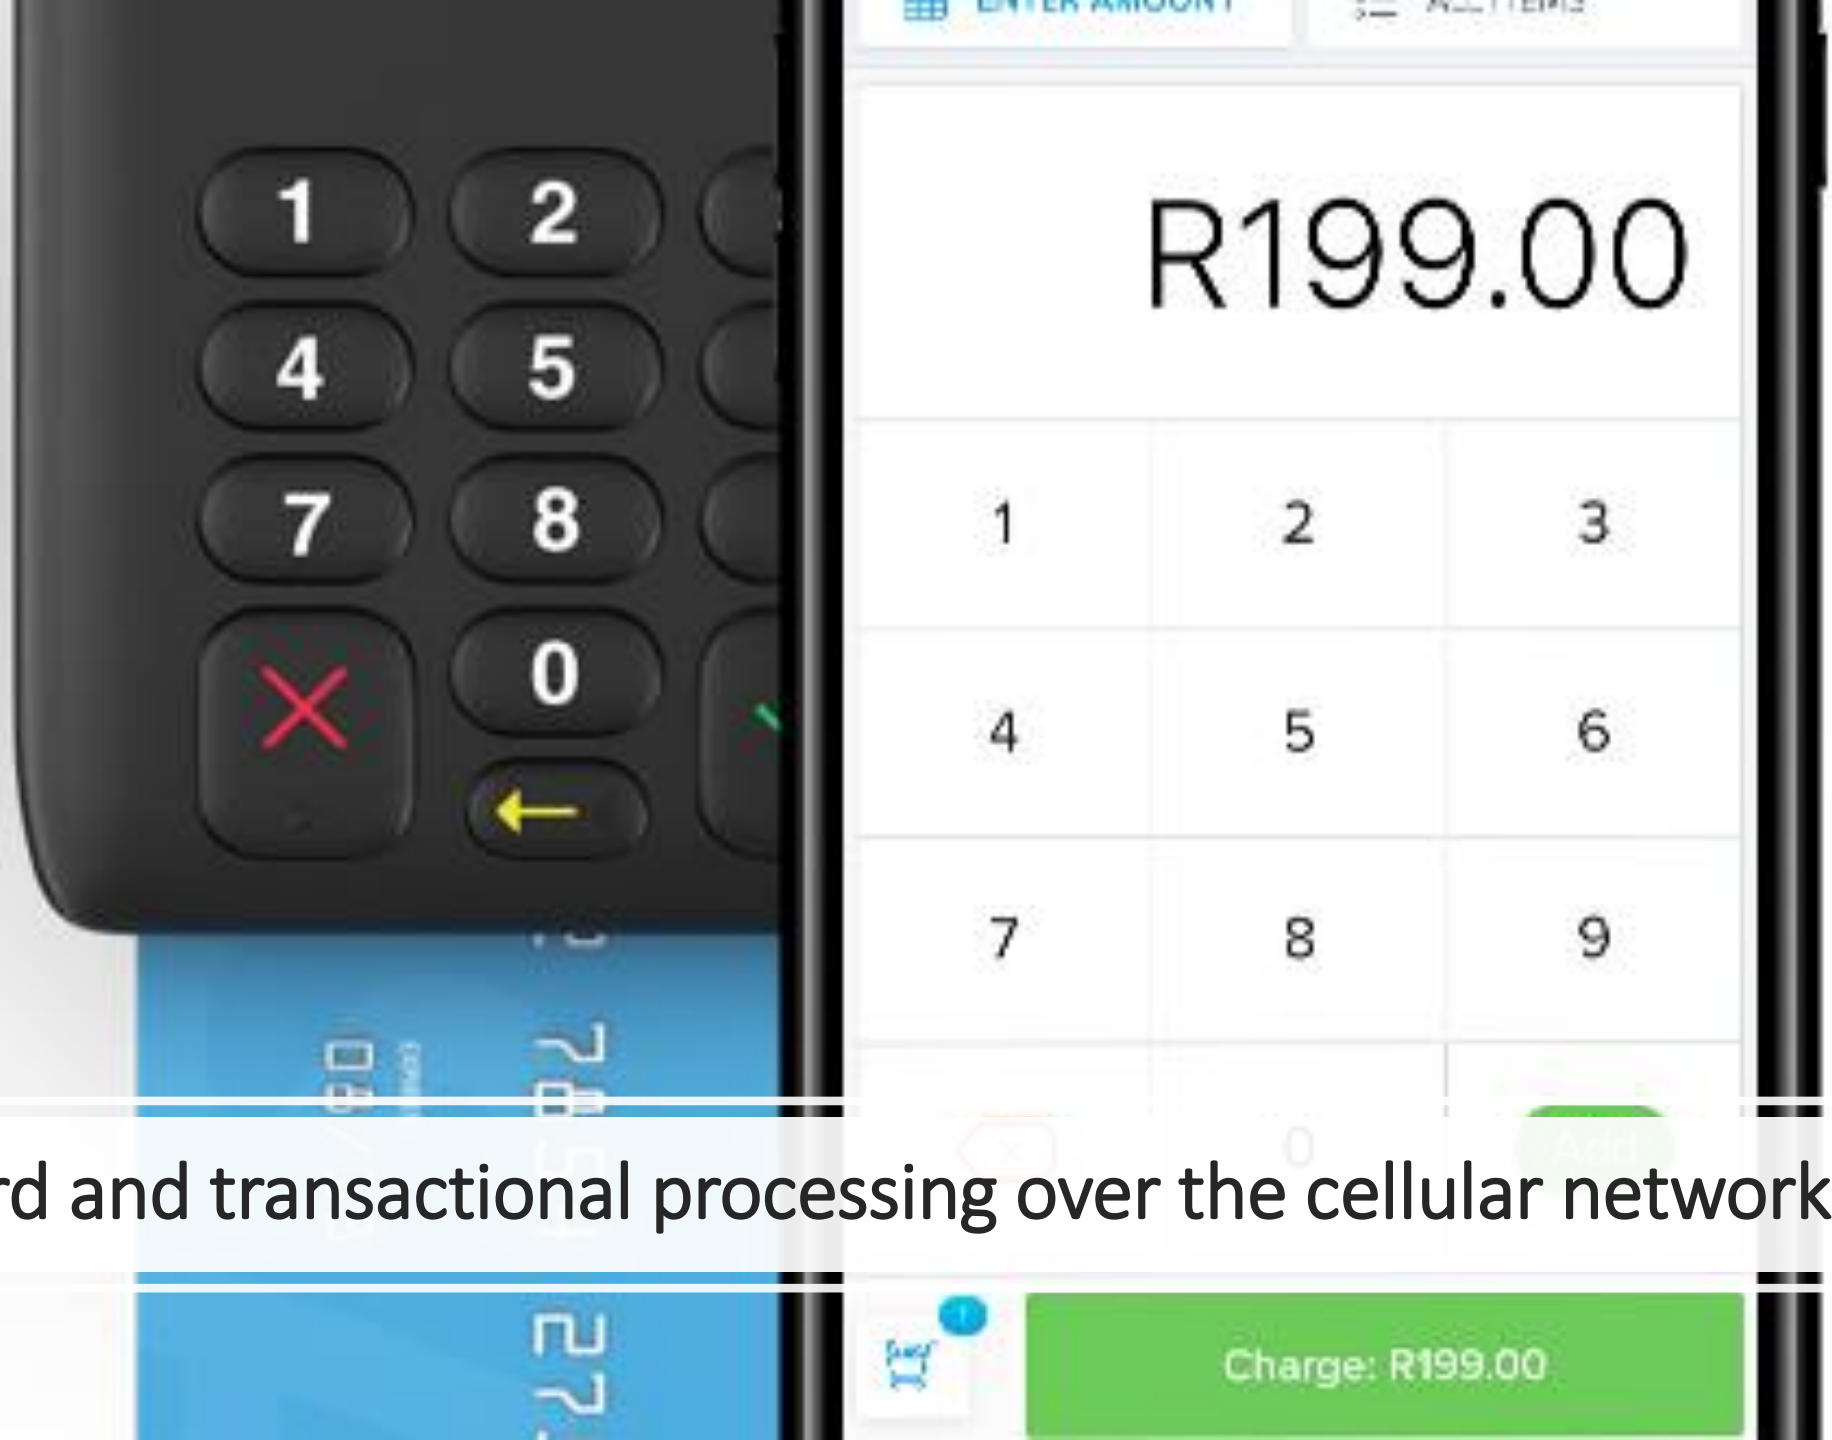

Small Fleets

But all fleets have **one thing** in common – The need for reliable Cellular Signal

Simple as phones in the car – Calls and Mapping

Credit card and transactional processing over the cellular network

Data exchange and Internet access over the cellular network

Plus, Electronic Logging Devices & Vehicle Management

First, let's take a step back

What's the issue with fleet vehicles and weak RF?

Q: If you wrapped your cellular phone tightly in aluminum foil, and called it, would it ring?

NO!

Foil shields whatever it covers from RF signals, both cellular, radio and TV. That's called a Faraday Shield!

So, what's wrapping
your phone in foil got to
do with Fleet Vehicles?

**Do you
Wrap your
phone in a
Tractor?**

**Do you
Wrap your
phone in a
Truck?**

**Do you
Wrap your
phone in a
Van?**

PLUS: Where do you store your phone when you drive?

Low in the
Center
Console?

Or on the
Dashboard?

And then, it gets
even worse!

TINT WORLD

METALIZED FILM INTERFERENCE

ATTENTION CUSTOMERS

Due to auto manufactures placing auto antennas in rear windows and new GPS satellite technology, Metalized film may not allow you to receive AM reception on your radio and it may also interfere with GPS satellite and cell phone reception.

TINT WORLD will not be responsible if we were not notified of these concerns and conditions or if customers chooses any Tint Package other than the Ultimate Ceramic and Carbon Films. There will be an additional charge if windows need to be redone or upgraded to correct this situation.

So, which cellular booster works best for your carrier?

Which booster
works best with your
cellular device?

weBoost Fleet cellular signal boosters improve the signal strength of ANY and ALL carriers for ANY or ALL cellular devices!

So, where
does our job
start?

Best Questions to Get You Started

First: Select your Booster.
Two Versions.

CHOOSE:

Amplify One Phone, or,
All Cellular Devices

Amplify **ONE**
cellular
device in the
vehicle: the
One in the
Cradle.

 **weboost**[®]
Sleek

Amplify **ALL**
cellular
devices in
the vehicle at
the same
time.

Does the **Wilson** antenna require a metal ground plane?

Some Wilson antennas require being placed or mounted on metal to operate correctly

YES!

Must be mounted
to a metal surface

YES!

Must be mounted
to a metal surface

NO!

Can be mounted/
attached to any surface

Next: what's the
body material?

Fiberglass or
Composite
body!

Does NOT
provide a
ground-plane

The new
workhorse of
the fleet
market – the
Sprinter!

Some have
composite
roofs – not
metal

FORD F-Series:
Aluminum Body
(metal), but no
magnetic antennas

Let's talk NMO – “New Motorola” Antenna Mounts

The new $\frac{3}{4}$ " NMO permanent mount

NMO 4G Cellular Antenna

Works with $\frac{3}{4}$ " or $\frac{3}{8}$ "
NMO Mounts

Good hole saw will have a lip to prevent drilling through and hitting the backstop. Lip also sets the depth of the drill to a little more than the thickness of the sheet metal.

Unibit Step Drill

Be careful of the headliner!

PULL DOWN THE HEADLINER

Then drill your hole and route
your coax to the booster

NMO Mounts

can be installed from
above or below the
roof surface

Innovative product for FORD F-Series Pickups:

Attaches between the 3rd-Brake Light and Body on Aluminum-Body Trucks
Then Mount Cellular Antenna to this Bracket

Let's discuss
NO GROUND PLANE antennas

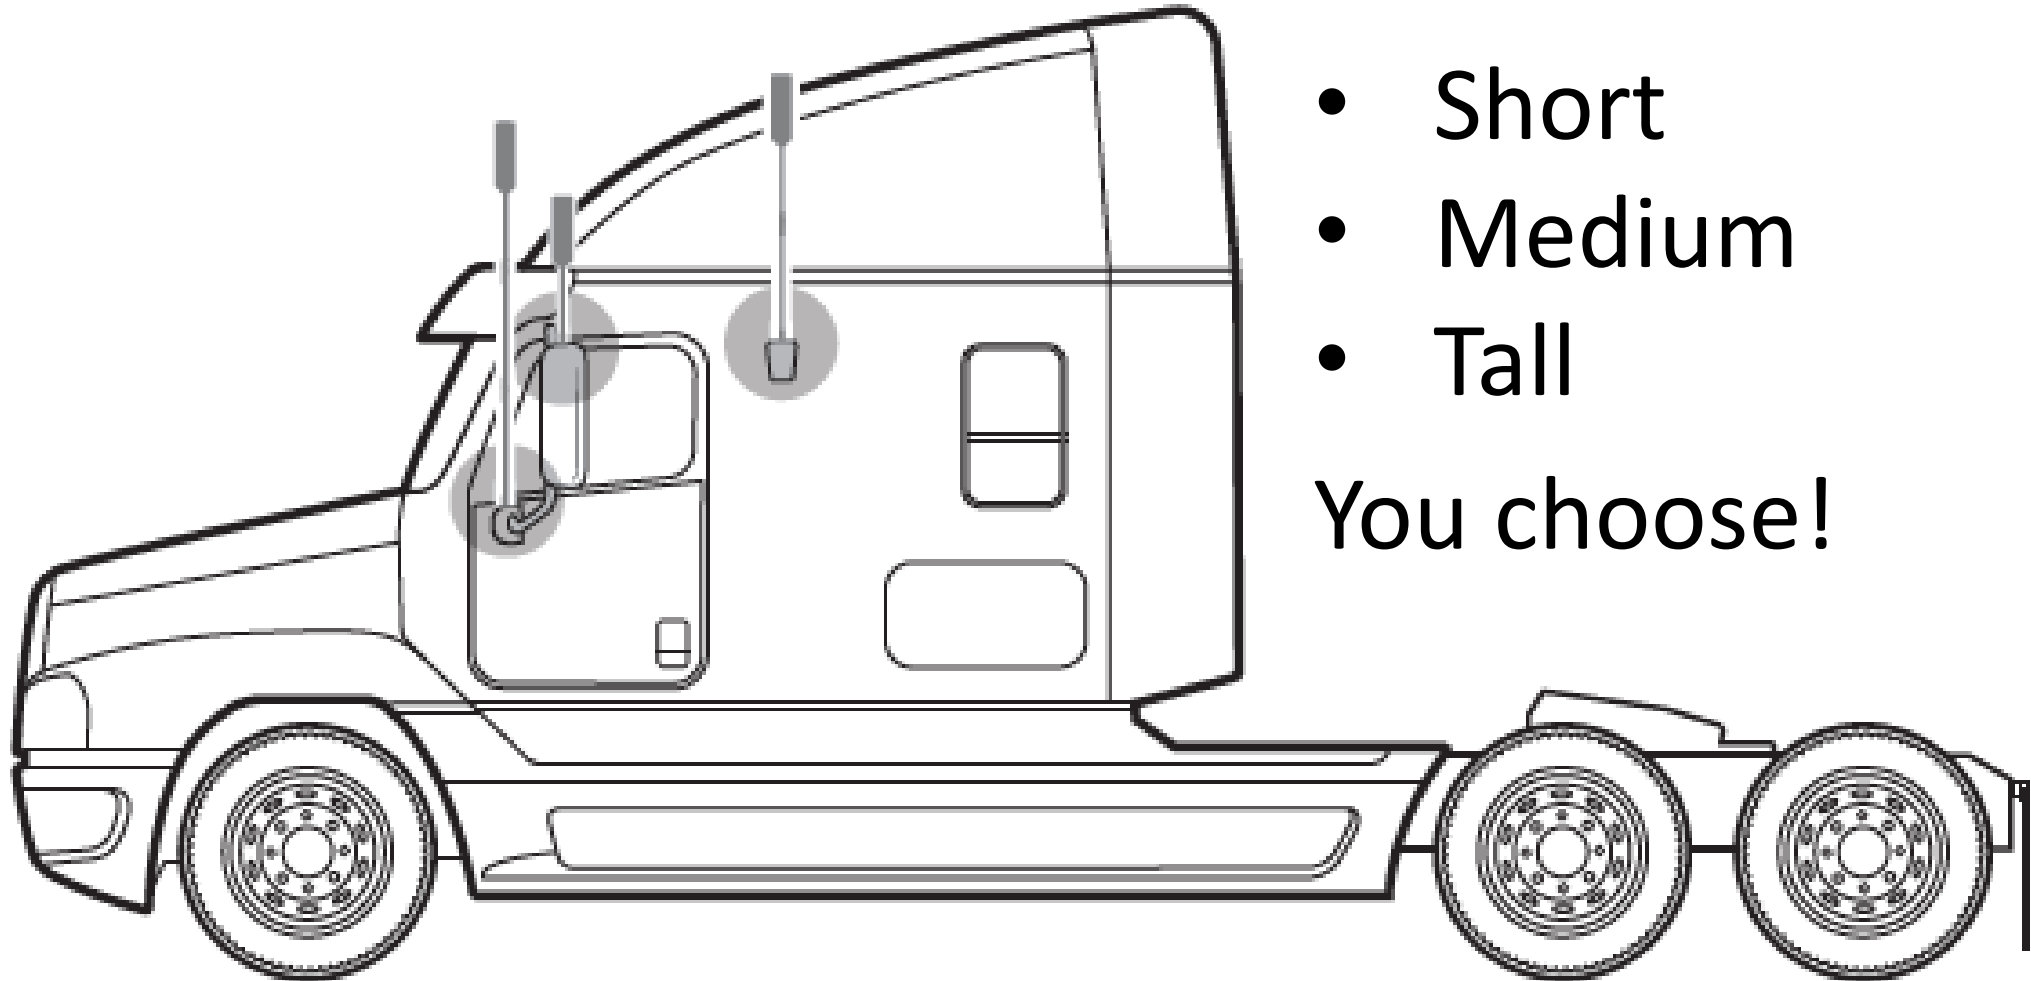

Wall, mirror,
body mount

Two additional mast extensions included:

Allows you to determine the proper height for the 4G Cellular Antenna in any application.

- Short
 - Medium
 - Tall
- You choose!

NOTE: The included spring should only be used on shorter masts variations.

Our unique Cellular Antenna Design

- 17" Tall
- 32" Tall
- 45" Tall

Innovative product for FORD F-Series and Chevy/GM Pickups:

Simple 3/8x24 Thread CB Radio Antenna Mount

Innovative product for FORD F-Series Pickups:

Simple 3/8x24 Thread CB Radio Antenna Mount Replaces Radio Antenna

Time to install our
cellular signal booster!
