

ATTACK wave™ Pestrepeller

Keep pests out of your house!

The Attack Wave Pestrepeller™ is an effective, user friendly and environmentally safe way to combat rodents. The device produces strong sound pressure in the air, attacking the auditory and nervous systems of rodents causing them to abandon their food sources and shelters.

The ultrasonic sounds continuously penetrate up to 5,000 unobstructed square feet. In addition, the Attack Wave Pestrepeller™ utilizes automatic wave variation, minimizing the chance that pests become immune to the sound. Inaudible and harmless to humans and common pets*, this unit operates totally chemical and battery free, making it the easiest way to keep bugs on the run.

- Powerful Ultrasonic Sound
- Harmless To Humans And Pets*
- Environmentally Friendly
- Low Power Consumption
- Maintenance Free

Specifications:

Model:	P7816
Power Supply:	110 VAC / DC Adapter
Power Consumption:	1.5 W
Frequency:	30,000 to 65,000 Hz
Sound Pressure:	110 dB Approx.
Effective Angle:	260 degrees
Effective Range:	4,000 - 5,000 square feet
Weight:	5.75 oz.
Dimensions:	4 3/4" x 4" x 2 3/4"

Specifications subject to change without notice.

*Do not use in the presence of Gerbils, Hamsters, Guinea Pigs, and other rodent pets.
