

## CLASSIC

Whether you grew up before the internet was invented or just want to escape from digital technology, the new Royal Classic portable manual typewriter is for you! With no internet, no email and no status updates to distract you, this typewriter just lets you type and create—let your imagination go! This is exactly what Grammy award-winning artist John Mayer does while composing lyrics on his typewriter. And Academy award-winning actor Tom Hanks used his collection of typewriters to write *Uncommon Type*, a brilliant collection of short stories. You too can enjoy the satisfaction of the feel, sound and seeing the printed page immediately. There is no need to worry about a power outage or losing your information in the cloud. This typewriter will never get a virus, never crash or need to update software. There are no batteries or cords; therefore, it is truly “wireless”. And now today, in continuing with its long history of manufacturing quality typewriters for literary, office and home use, Royal introduces the Classic. The manual typewriter is a historically memorable piece with a timeless quality that Royal has produced since its earliest typewriters. The Classic features a sturdy metal housing in retro colors. The Classic provides the essential functions to compose a novel, write lyrics or send an old fashioned thank you note. A computer will never be as beautiful as a vibrant typewriter, so take a step back in time and enjoy the Royal Classic!

### Keyboard

Number of keys	44 keys / 88 symbols
