Scorpion II

EVERYDAY PREPAREDNESS

When emergencies or outdoor adventures take you off the grid, you need a device that can meet your multiple needs. The **Eton Scorpion II** is a compact unit that you can easily store in a safety kit or toss in your rucksack and take virtually anywhere. With the rugged exterior skin and aluminum carabiner, the Scorpion II is designed to endure any extreme outdoor conditions or emergency situation you may find yourself in the midst of.

EMERGENCY ESSENTIALS

The emergency essential features include a crank powered handle, built-in LED flashlight, and USB/cell phone charger. The high-quality digital AM/FM tuner provides you with news, entertainment and public service announcements. Not only that, but it also integrates a NOAA Weather Band receiver that brings you weather forecasts, alerts and other emergency messages—information vital to backpackers and travelers.

RENEWABLE POWER

The internal rechargeable lithium battery can be easily charged before you embark on your adventures. The Scorpion II also sports crank and solar charging with a battery charge indicator to ensure that you're always aware of the amount of power you have remaining.
