Quick Start Guide

nutrichef

Button Functions & Layout:

• Starts ice making *(Note: a blinking snowflake icon indicates the system is activated & making ice cubes)*

• Press to configure time settings -- **keep pressing to adjust different time modes:**

'ON' Mode - 'Auto Start Time', when the unit automatically activates ice cube making

'OFF' Mode - 'Auto Off Time', when the unit deactivates and stops ice cube making

'TIMING' Mode - 'Auto Start Time' + 'Auto Off Time' can both be configured & preset

• Used to adjust time values after pressing the 'SET' button (Note: the system is configured in a 24-hour time format)

• Activates the Auto Start Time, and de-activates the system with Auto Off Time (if ON/OFF times were preset)

• Changes between ice cube sizes created *(small, medium, or large)*

Icons & Notifications:

88:88 Clock icon indicates real time (24 hour format), set real time, and target times in hours and minutes

Selectable ice cube sizes to be made
(L=Large, S=Small, M=Medium sizes)

When blinking, indicates low/empty water levels

When blinking, indicates the system is activated and in the process of creating ice cubes
