Woman'sDay Editor's Choice Award Winner
LIVE WELL EVERY DAY

This unique roller system beats clips, tape or pins at holding notes and paper. Insert paper and it's held in place, pull down and it releases. Attaches to refrigerators, file cabinets and tool boxes, with built-in magnets, walls or any other flat surface with the included double-sided tape, sheet metal with included bolts and nuts, or wood with included screws.

The top is perfect for holding pens and pencils.
