Pair the Smart Bulb

1

Download the **Energizer**® Connect app from the App Store (for iPhones) or Google Play Store (for Android phones).

Before opening the app, make sure your phone is connected to the WiFi network that your smart bulb will be placed on.

Download on the
App Store

GET IT ON
Google Play

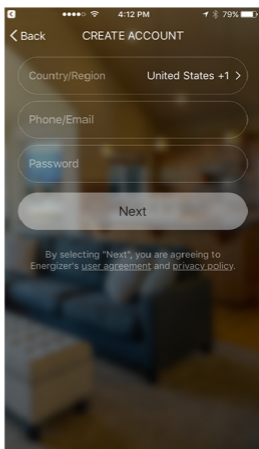

Energizer®

1

2

Open the app and create an account by following the on-screen instructions.

Energizer

2

3

Turn off power to the light socket. Screw the bulb into the light socket. Turn power back on.

Note: The Smart Bulb should start blinking rapidly (about 4 times per second) for EZ pairing mode.

Blinking Definitions

AP MODE	Slowly blinking (about 2 times per sec)
EZ MODE	Rapidly blinking (about 4 times per sec)

Energizer

**3**

4

After logging in, click “+” on the top right of the screen and select “Add Device”.

Energizer

4

5

Select “Color Bulb” or “White Bulb” depending on the bulb you have.

Energizer

5

6

Confirm that the smart bulb is still rapidly blinking, then click next.

7

Confirm that the network WiFi displayed is your 2.4ghz WiFi network, enter your WiFi password and click confirm.

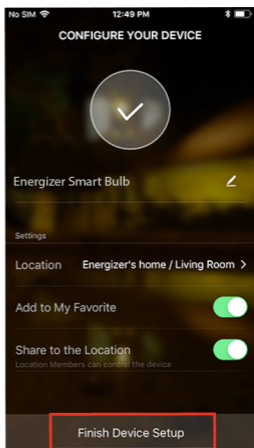

Energizer

7

Your smart bulb will now be connected to the network. Confirm the settings for your device and then click finish device setup.

Your **Energizer**® Smart Bulb is now ready to use. You can now change color temperature, dimness and set schedules.

We hope you enjoy using your **Energizer**® Smart Bulb. For frequently asked questions and instruction videos, please visit our website at www.energizerconnect.com.

Troubleshooting

If you need to reset or troubleshoot your bulb, simply turn the bulb on/off, on/off, on (manually).

NOTE: Once the smart bulb is fully set up, turning the light switch off and on multiple times in a row may cause the smart bulb to go back into reset mode. If this happens, please delete the bulb from your app and re-add it normally.

Pairing Modes:

EZ mode: The device's light is rapidly blinking for easy, quick pairing setup.

AP Mode: Access Point mode is a secondary setup process in which the device's light is slowly blinking and requires multiple steps for pairing. Follow the on-screen step by step instructions.

Notice

CAUTION: Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

RADIO AND TELEVISION INTERFERENCE

This equipment has been tested and found to comply with the limits, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This applies to Energizer® Connect smart bulbs with model numbers EAC2-1002-RGB, EAW2-1001-MWT, EAW2-1001-SWT, EBW2-1001-MWT and EBC2-1001-RGB

THIS DEVICE IS NOT INTENDED FOR USE WITH EMERGENCY EXITS.

RISK OF ELECTRICAL SHOCK - USE IN DRY LOCATION ONLY

DO NOT USE WITH DIMMERS

NOT FOR USE IN TOTALLY ENCLOSED LUMINAIRES
