POWER UP

1. Insert 2-AA batteries into your Outdoor Sensor.
2. Insert 3-AAA batteries into your Digital Clock.
3. Once the Outdoor Sensor is reading to your clock, place it outside in a shaded location to protect it from the sun's heat.

CUSTOM DATE DISPLAY

Choose to display the Full Weekday or Weekday with Month and Date. Simply press the SET button to select you desire display.

SETTINGS

1. Hold the SET button to enter the Settings Menu.
2. Use the + or - button to adjust values.
3. Press the SET button to confirm and move to next item.

Settings Menu Order:

- Language English | Spanish
- Beep ON | OFF
- Atomic ON | OFF
- Daylight Saving Time
 - DST AUTO ON (Gain 1 hour in spring, lose 1 hour in fall)
 - DST OFF (Remain in Standard Time all year long)
 - DST ON (Remain in Daylight Saving Time all year long)
- Time Zone
- Hour
- Minutes
- Year
- Month
- Date
- Fahrenheit | Celsius

Atomic OFF: When OFF is selected the next step will be the Hour setting.

Language: Whichever language is selected, the following instructions and weekday will be presented in that language.

Weekday: Weekday will set automatically when Year, Month and Date are set.

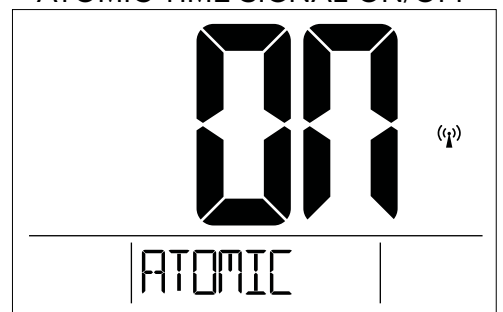

LANGUAGE

BEEP SOUND ON/OFF

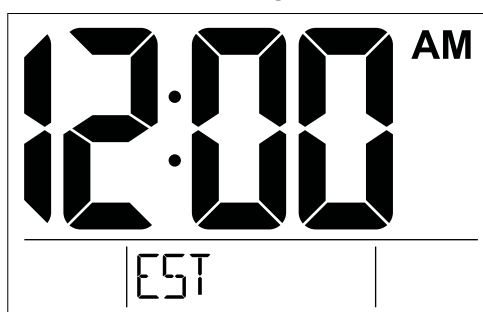

ATOMIC TIME SIGNAL ON/OFF

DAYLIGHT SAVING TIME

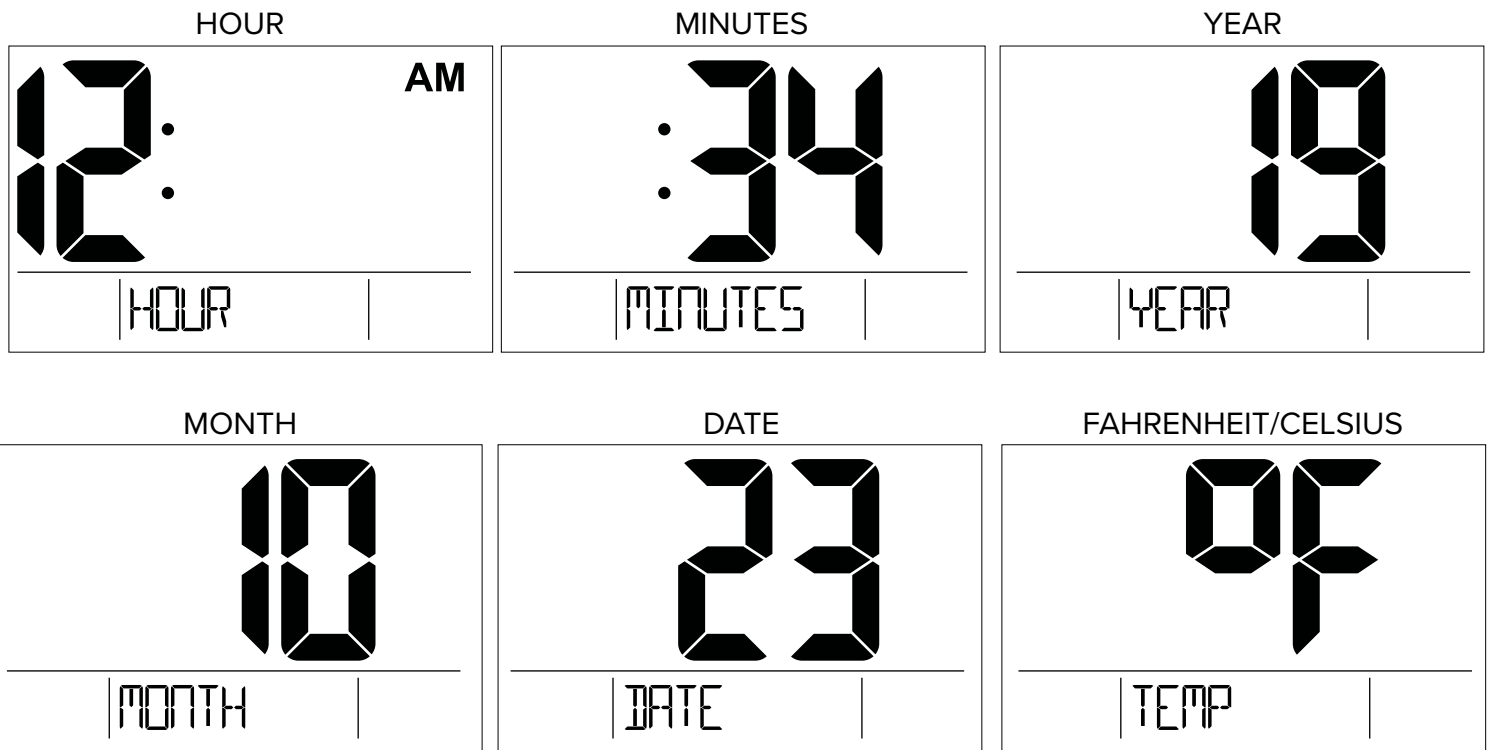

TIME ZONE

TIME ZONES

- AST = Atlantic
- EST = Eastern
- CST = Central
- MST = Mountain
- PST = Pacific
- AKT = Alaska
- HAT = Hawaii

DAYLIGHT SAVING TIME OPTIONS

Some states are considering going to year around Daylight Saving Time. We have built in options to accommodate this feature into the program menu.

DST AUTO ON: Your clock will automatically move 1 hour ahead in the spring and move one hour back in the fall when it receives the signal from the Atomic Clock to change.

DST OFF: This is for areas who do not move forward one hour in the spring. Select DST OFF to remain in Standard Time all year.

DST ON: This is for areas who do not move backward one hour in the fall. Select DST ON to remain in Daylight Saving Time all year.

ATOMIC TIME

- Your Clock will automatically search for the Atomic Time Signal at UTC 7:00, 8:00, 9:00, 10:00, and 11:00.
- Press the PLUS (+) button to manually start or stop search for the WWVB Atomic Time Signal.
- While searching, the Tower Icon (📡) will flash. The Tower Icon will be solid when the WWVB Signal is received by your clock.
- For information about WWVB Atomic Time visit: bit.ly/AtomicTime

TIME ALARM

Set Time Alarm

1. Hold the ALARM button 2 seconds to enter settings mode.
2. Press the + or - button to adjust the flashing values.
3. Hold the + or - buttons to adjust quickly.
4. Press the ALARM button to confirm adjustments and move to the next item.
5. Press the SNOOZE button at any time to exit.

Activate/Deactivate Time Alarm

- The alarm is active when set.
- From normal time display, press and release the ALARM button to deactivate or activate the alarm. The alarm time will show for 2 seconds.
- Alarm icon (bell) will show then active.

Snooze Alarm

- When alarm sounds, press the SNOOZE button to silence alarm for 10 minutes.
- The alarm icon (bell) will flash
- Press any button except SNOOZE to silence the alarm for 24 hours

OUTDOOR SENSOR RECEPTION

- If sensor loses connection to the weather station for any reason, the weather station will show NO after 30 minutes.
- The weather station will search for 3 minutes every hour to reconnect with sensor.
- Hold the PLUS (+) button 3 seconds to search for the outdoor sensor.
- Reception Icon will flash while searching for sensor. Outdoor sensor area will show dashes during the search.
- When sensor is received the icon will be solid.
- If no sensor received, the icon will disappear after 3 minutes of searching if sensor is not found. NO will again show in the outdoor sensor area.

FACTORY RESTART

Factory Restart:

When the outdoor readings show NO and searching for the sensor has not helped, complete a full restart:

1. Bring the sensor in the house about five feet from the clock.
2. Remove batteries from the sensor, and from the clock
3. Press any button 20 times.
4. After 15 minutes, insert batteries into the sensor, and into the clock.
5. Wait another 15 minutes to establish a strong connection. Place sensor outside in shaded location.

LOW BATTERY INDICATORS

- A Low Battery Indicator between the Outdoor Temperature/Humidity means you need to replace the batteries in your sensor.
- A Low Battery Indicator by the time means you need to replace the batteries in your station.

SENSOR WEATHER SHIELD

- The Sensor Weather Shield (sold separately) is designed to protect your outdoor sensor from rain and snow.
- This shield will offer limited protection from the sun's heat.
- Optional purchase at: bit.ly/925-1418

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.
