

Indy Evo

True Wireless Earbuds

# TRUE FREEDOM, AMPLIFIED.™

Indy™ Evo lets you go totally wireless without conforming to the great white norm. These are the true alternative to precious, overpriced earbuds that you're afraid to use, or lose, or both.

## KEY SELLING POINTS

### THERE'S NOTHING BETTER THAN NOTHING.

True wireless means no wires anywhere. And no wires means no snagging, yanking, or tangling. Plus, with new Indy Evo, the case and the earbuds hold up to 30 hours of total playtime, and either bud can take calls or activate your assistant.

### CELEBRATE YOUR PERSONAL INDEPENDENCE.

Indy Evo comes in multiple colorways, so you can stay on trend or express yourself appropriately. Compared to first-generation Indy, Indy Evo is slightly smaller with improved ergonomics and bigger sound to fit more ears even better.

### BE FREE, NOT FEARFUL.

We made Indy Evo earbuds durable with IP55-rated sweat, dust, and water resistance. We also made them harder to lose with a built-in Tile® tracker. And just in case any part is lost or damaged, our Fearless Use Promise means we'll replace it at a discount.

### LISTEN YOUR WAY TO WHATEVER YOU WANT.

Touch controls give you full control of all your media directly from your buds. Answer calls, jump between tracks, adjust volume, activate an assistant, select from different EQ modes, or even switch into Ambient Mode to hear more of your surroundings—all without ever touching your phone. EQ modes can also be controlled directly from the Skullcandy App.
