⑥	FADE	Fade color-changing mode
⑦	SMOOTH	Smooth color-changing mode
⑧	RESET	Reset to default settings
⑨	DIMMER BUTTONS	Adjust the brightness/intensity

Get Started

1. Clean the surface you intend to stick the LED Light to

2. Peel beginning of adhesive backing off and firmly stick LED Light onto the mounting surface (be careful to peel off only the backing and not the adhesive)

3. Peel off more of the adhesive backing as you mount the LED Light, pressing and holding each section firmly against the surface

4. Remove the tab from the battery compartment of the remote control

5. Connect the USB cable to a USB wall charger or a power bank (1A adapter required – not included)

Installation Notes:

1 For best mounting results, place adhesive onto desired surface with ONE attempt. Reapplying multiple times will not guarantee secure mounting onto surface.

2 Make sure the desired location is close enough to a power source like a TV's USB port or a wall outlet with a 1A USB adapter (not included)

3 For optimal performance, place IR receiver in a location away from the IR receiver on the TV to avoid interference from the TV remote control signal

4 For backlighting a TV or monitor, follow the mounting diagram below:

the pinch   the pinch

(Back of TV)

USB

Operation

1. Turn on the LED Light by pushing the ON button on the remote control

2. Select the desired color of the desired effect by pushing the corresponding button on the remote control

3. Set the desired brightness using the buttons to increase/decrease the intensity of color

4. Push the OFF button to turn off the LED Light

Changing the remote control battery:

Note: The battery for the remote control has already been installed. Remove the battery pull tab to operate.

1. The battery compartment is located on the narrow side of the remote control

2. Remove the empty battery and insert a 3V battery, type CR2025, with the positive terminal pointing upwards

3. Place the battery compartment back in the remote control so it locks in place

Safety Instructions

Please read and understand all instructions before using this product. If damage is caused by failure to follow the instructions, this warranty is null and void.

- Keep these instructions.
- Do not drop, puncture, or disassemble this product.
- Do not expose this product to dripping or splashing of drinks or liquids of any kind.
- Avoid long exposure to direct sunlight, which may cause damage.
- Do not expose this product to open flames.
- Do not use the product in a strong magnetic field.
- Use a clean, soft cloth to clean. Do not use any corrosive cleaners/oils to clean.
- Do not attempt to repair the device or open the unit as this will void the warranty.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning

Changes or modifications not expressly approved by the party responsible for compliance could void the user's warranty or authority to operate the equipment.

FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed or mobile condition. The minimum separation distance is 20cm.

Specifications
