

CLEARSTREAM™ ANTENNAS

CLEARSTREAM™ 2V WITH MOUNT

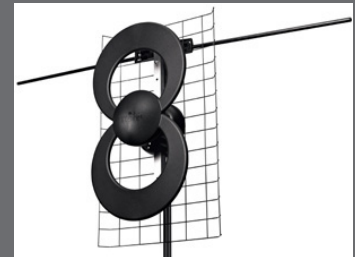

The ClearStream™ 2V UHF/VHF antenna offers the power and efficiency normally found in antennas up to 10 times its size. It utilizes the patented ClearStream™ Tapered Loop Technology, which delivers the first new and superior antenna design.

This advanced technology allows the ClearStream™ line of antennas to be smaller and more powerful across today's DTV spectrum. In a compact 18" x 12" (35" with raised dipoles) form, the ClearStream™ 2V is the first broad spectrum antenna without the performance compromises typically seen in outdated designs of legacy antennas. With its unique integrated diplexer, the ClearStream™ 2V takes on the challenge of combining UHF and VHF signals.

The ClearStream™ 2V has a 50+ mile range and is the ideal antenna for suburban installations challenged with receiving signals through heavy foliage outdoors or roofing materials in attic installations. No other antenna exists can rival its dual-band performance. ClearStream™ antennas are engineered for strength and durability. The Antennas Direct® Lifetime Warranty assures you of its superior build quality.

CLEARSTREAM™ 2V

- SKU# - C2-V-CJM
- Description - ClearStream™ 2V Long Range UHF/VHF DTV Antenna
- Range: 50+ miles
- Beam width: (HorizontalPlane) 470 to 700 MHz: 70 degrees
- Gain: Max 10.2 dBi
- VSWR: 2.1 or better
- Front to back ratio: Max 22 dB
- Size assembled 18"L x 12.2"W x 3.6"D 35"W with Dipoles extended
- 20" Antenna Mount with mounting bracket and expansion bolts
- Lifetime Warranty
- MSRP - \$119.99
