DRYER VENTING

SilverDuct™ Foil Hose

4" x 8'

- UL® 2158A Clothes Dryer Transition Duct
- Steel wire supported with layers of aluminum foil and polyester plastic

Includes two clamps

Safety Precautions

Check your dryer warranty and installation instructions and local building codes for appropriate use. This product contains plastic, which may invalidate your dryer warranty.

- Do not crush, collapse or otherwise obstruct airflow.

Dryer manufacturers specify all metal dryer venting to:

- Improve airflow
- Reduce the risk of fires
