

INSECT ZAPPER

2-in-1 Portable Zapper and Accent Light

Owners Manual

IMPORTANT SAFETY INSTRUCTIONS

READ THE ENTIRE PRODUCT LABEL AND OWNERS MANUAL BEFORE USING

ELECTRIC SHOCK RISK ONLY FOR DRY LOCATIONS

Thank you for choosing the PIC® Pest Free Living **Insect Zapper**. Please read the instruction manual carefully to ensure use of this product complies with all safety regulations.

The unit is equipped with blue UV-A/infrared lighting functions and a zapping grid which kills bugs on contact. The white LED light is suitable for illuminating the area as an accent light or small lantern. The unit also works with all functions running at the same time, so you can use as a light, but still use it as an insect zapper.

It is recommended that you place the unit away from you when using as a zapper to draw the insects towards the light .

OPERATION:

The unit should be fully charged using the micro USB cord that was included with your purchase before use. Plug the Micro USB end of the cord into your unit, and the USB end of the cord into any USB port; additional equipment is not required. The indicator light on your device will shine green when ready to use.

1. **To turn the unit ON**, simply move the toggle switch located on the base of the unit to the right.

• **Position 0** – the unit is off.

• **Position 1** – Blue UV-A/infrared light, white LED accent light and zapper. On this setting with a full charge, the unit will last approximately 7 hours until it needs to be charged again.

• **Position 2** – Blue UV-A/infrared light and zapper. On a full charge, the unit will last approximately 20 hours until it needs to be charged again.

• **Position 3** – LED accent light only. On a full charge, the unit will last approximately 11 hours until it needs to be charged again.

2. **To clean the unit**, ensure the toggle switch is **OFF** in **Position 0**. Gently use the brush included with your purchase to brush away any accumulating debris.

CAUTION – High Voltage, Keep out of Reach of Children.

CAUTION – High Voltage, Power off unit before servicing.

CAUTION – To reduce the risk of fire, remove insects frequently.

CAUTION – Collected insects may be a fire hazard. Clean dead insects from the unit frequently.

WARNING – Skin or eye damage may result from directly viewing the light produced by this apparatus.

CAUTION – ELECTRICAL SHOCK HAZARD MAY EXIST IF WATER FROM A GARDEN HOSE IS DIRECTED AT UNIT WHILE IN OPERATION.

CAUTION – Do not stick foreign objects, metal objects or fingers into the unit.

CAUTION – Do not tamper with or modify unit.

CAUTION – Do not clean unit while it is powered on.

CAUTION – Before cleaning, allow unit to sit for at least 45 minutes to release charge from electric grid.

CAUTION - Do not clean or spray the unit with water, cleaning spray, or any other liquid. Do not use or leave in rain.

CAUTION – Do not submerge unit in water or any liquid.

CAUTION – Keep out of contact with flammable items such as paper or clothing.

CAUTION – Do not use flammable liquids around unit.
