Set Display to Extended Mode

1. Click on the DisplayLink icon.
2. Select Extend.

This device is now extended in the direction it was the last time the display was in this mode. For more control, use the Extend To submenu and select one of the options. This puts the device into extend mode, and places it to the Left/Right/Above/Below the main (primary) monitor.

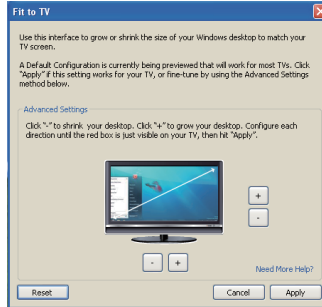

Set Display to Mirror Mode

1. Click on the DisplayLink icon.
2. Select Mirror.

The resolution, color depth and refresh rate of the primary screens are replicated on the monitor connected to the docking station.

Set Display to Fit TV

1. To configure Fit to TV, choose the option from the DisplayLink graphical user interface (GUI). The following interface appears:

2. You will also see a red border on the DisplayLink screen.

The red border shows the size of the new Windows desktop. Use the “+” and “-” controls on the Fit to TV GUI to change the size of the red border until it fits on the TV screen.

Note: Finer configuration of the size of the border can be achieved by holding down the CTRL key and click on the “+” and “-”.

3. Once the red border is at the edges of the TV screen, click Apply to resize the Windows desktop.
