Download on the **App Store**

GET IT ON **Google Play**

- Adjust Volume
- Change Language
- Change Resolution
- Format SD Card
- Update Firmware
- …and more!

Troubleshooting

If your unit is not operating properly, please follow these troubleshooting steps:

- Make sure the power cord to the M2, as well as the pigtail cord from the M2 to the detector, are both properly connected.
- Make sure the socket of your vehicle's cigarette lighter is clean and free of corrosion.
- Make sure the power cord's adapter is firmly seated in your cigarette lighter, and the power LED is on.
- Make sure the micro SD memory card is properly inserted into the memory card slot.
- If there is an SD card error, format the SD card from the app. Please note this will delete all files stored on the card.
