DS3 THE SIMPLE SOLUTION

DS3 Remote Start System

DS3 Remote Start System

Features:
Integrated Data Bus Interface
3X Lock Start from OEM remote
Onboard fuses
Temperature sensing

Upgradable:
• Long range remote control
• SmartStart control and GPS
• Security shock/ tilt/ temp sensor
• T-harness compatible

Includes:
• DS3 module
• Temperature sensor (8556T)
• Valet/LED switch
• Universal installation harness
• Dynamic doc tool creates a unique
  installation guide for your install

DS3P Remote Start System

DS3P Remote Start System
with High Current Relays

Features:
Integrated Data Bus Interface
3X Lock Start from OEM remote
High current relays
Onboard fuses
Temperature sensing

Upgradable:
• Long range remote control
• SmartStart control and GPS
• Security shock/ tilt/ temp sensor
• T-harness compatible

Includes:
• DS3+ module
• Temperature sensor (8556T)
• Valet/LED switch
• Universal installation harness
• Dynamic doc tool creates a unique
  installation guide for your install

DIRECTED. SMART**START**·PRO
Start, control and locate your car with your smartphone.

DSM550

The DS3 Infrastructure Universal. Intuitive. Complete.

Directechs
The all-new Directechs.com is the go-to resource for everything **DS3**.

Embedded Software
All the software is already built in to **DS3**, including Remote Start, Security, 3X Lock Start, and more.

Firmware
Solutions for more than 90 percent of the vehicles on the road today.

DS3 SECURITY UPGRADE

LEVEL 1 8504D

Add Security to any **DS3**

Level up your system with these enhanced features!

Includes: Digital Shock/Tilt/Temp Sensor with car horn honk

LEVEL 2 DS4SU

Add Python Security
to any **DS3**

Create a complete and fully-featured **DS3** Remote
Start and Security System for full vehicle security
and convenience.

Includes: Digital Shock/Tilt/Temp Sensor · Six-Tone Siren

The DS3 Security Upgrades offer additional protection against:

Component Theft	Vehicle Theft
Content Theft	Valuables Containing Secure Information

DS3 T-HARNESS SOLUTIONS

Offers the most coverage for T-Harness
compatible vehicles

Boost sales and increase profits by servicing
a wider range of vehicles in less time

Vehicle-specific plug-and-play solutions mean
faster installations and more vehicle coverage

Drastically reduce installation time

Guaranteed performance improves customer
satisfaction and develops repeat business

All new color-coded box design makes locating
the parts you need fast and easy

Directed offers the most vehicle specific Harnesses.

Nothing is faster or easier!

T-Harnesses

The widest array of vehicle-
specific T-harness solutions to speed
up and simplify installations.

Dynamic Documents

Installation documents are
generated specifically for
vehicle's make, model, and year

Directed® SmartStart

Easy upgrade to Directed®
SmartStart for the ultimate
in vehicle remote start, control,
and GPS features.

SECURITY AND REMOTE START SYSTEMS

Python leads the industry in award-winning security and remote start systems with innovative, installer-friendly features designed to boost your margins in the tech bay, including patented Virtual Tach, D2D, Control Center, Manual Transmission mode (some systems), remote mountable shock sensor, onboard remote start relays (most systems) and flex relay! Plus consumer-friendly features including temp check, remote start reset and range that your customers can count on every time. That's what makes Python the security and remote start leader!

*   Range based on line-of-sight unobstructed testing under ideal conditions. Actual range will vary due to local conditions, including but not limited to environment, terrain, physical obstructions, vehicle location and orientation, interference and other possible impediments.

**   Additional parts and labor may be required

DIRECTED®
SMART**START**·PRO

Rebuilt from the ground up, the Directed® SmartStart-Pro builds on our ten years of experience to take our connected car offering to a whole new level. We listened to you, our valued dealer partners, and our SmartStart users in developing SmartStart-Pro. We kept all that's great, upgraded and improved where needed, and added features and functionality to deliver even more value. The result is an entirely new connected car service optimized for the Fastest Vehicle Response Times, and engineered to be our platform for the next decade.

SECURITY SYSTEMS

Python is Security for the Best™, because it's the world leader in vehicle security that offers more choices for you and your customers. Python offers affordable 1-way to top-of-the-line 2-way systems that provide state-of-the-art protection against thieves and vandals. For customers who don't want to give up their factory keys, Python also offers innovative OEM security upgrades that add the pre-entry protection of the Stinger® DoubleGuard® Shock Sensor, Revenger® Six-Tone Siren and FailSafe™ Starter Kill to virtually any factory keyless entry system.

REMOTE START SYSTEMS

Python remote starts millions of vehicles – including manual transmission vehicles – and Python systems have the very latest digital OEM integration technologies built in! They include a D2D port, which allows a bypass and interface to make a direct digital connection to the CPU. Most systems include onboard remote start relays.
