NOTE: The instructions for this manual show the driver installation of a Serial Converter with a Prolific chipset – "PL-2303 USB to Serial". The images in this manual refer to the steps for Windows 7 users. The procedures and instruction screens for other chipsets and operating systems may vary slightly. Some screen images have been modified to fit the format of this manual.

To Install the Driver

1. Before plugging the converter in to the computer, load the included driver CD and double-click "PL-2303 Driver Installer Program" to display the Welcome screen of the InstallShield Wizard. Click Next.

User Manual

2. The Setup Status screen will display to indicate the progress of the installation. When the InstallShield Wizard Complete screen (below) displays, click Finish. Note: If you inadvertently connected the converter to the PC while running the driver installation, unplug it and re-connect so the system can detect it.
