

MuscleHook

Targeted Deep Tissue Massage

Target sore muscles and trigger points for a deep tissue massage with GoFit's Muscle Hook. The rounded knobs simulate the thumbs of a massage therapist while the unique hooked configuration allows you to reach tight muscles over the entire body. Specially-designed hand grips provide the leverage needed to apply the ideal massage pressure that's right for you.

TRAIN. RECOVER. REPEAT.

BENEFITS OF MUSCLE PAIN MANAGEMENT WITH THE MUSCLE HOOK

- Quick relief to muscular pain.
- Erodes trigger-points while massaging the muscle.
- Accelerates the de-stressing process.
- Restores and increases your flexibility/range of motion.
- Improves body strength and circulation.
- Aids in avoiding injury.

RECOMMENDED GUIDELINES

The GoFit Muscle Hook is an excellent tool that is shaped to reach all muscle groups and trigger-points for a deep tissue massage. You decide on the best angle and the amount of pressure you want to apply to your trigger-point areas for maximum relief. Use the Muscle Hook **pre-workout** to ease tension and improve range of motion and performance, or utilize it **post-workout** to assist with your recovery process.

**Please check with your physician before engaging in any exercise or massage therapy program to determine if it is appropriate for you.*

Guidelines Continued

BEGINNER: Place and hold *light* pressure for 15 to 20 seconds on tight or stiff areas. Repeat 1 to 2 times per session, or until muscle tissue relaxes.

ADVANCED: Place and hold *greater* pressure for 30 to 45 seconds on tight or stiff areas. Repeat 3 to 4 times per session, or until muscle tissue relaxes.

- Do not put pressure directly onto bones.

- Do not massage areas of skin irritations or inflammation.

- If bruising or discoloring occurs, this is a sign of too much pressure and massage should be discontinued immediately. Too much pressure could cause damage to your tissues.

- To allow for better relaxation and results, take deep breaths in and out.
- You may feel some discomfort where the hook is hitting the trigger point area.
- Some areas may be more tender than others, so apply the amount of pressure that is comfortable to **you**.
- If you feel extreme discomfort, discontinue use of the Muscle Hook immediately.
