

FOLLOW EQUIPMENT MANUFACTURER'S CLEANING INSTRUCTIONS.

1. Turn equipment off and allow to cool prior to cleaning.
2. Hold container upright and spray Gel directly onto area to be cleaned.
3. Wipe surface with included Endust® for Electronics low-lint Microfiber Towel. Gel may be applied directly to microfiber towel if preferred.

To Clean Towel:

Rinse or launder in warm water. Do not bleach or use fabric softeners. Air dry or tumble dry on low.
