

GN-55 MagniLamp
2x Power Acrylic Lens, 4x bi-Focal Spot Lens

The Carson MagniLamp is a hand-held or fully adjustable stand magnifier with built-in light that lets you see all the finest details. It's large acrylic 2x power main lens and 4x power spot lens provide sharp, crystal-clear images.

- Great for reading fine print
- Viewing coins, stamp and insects
- Perfect for all needlework and craft
- Ideal for hobbies, model building, and small electronics.

Directions:

Snap adaptor in base (note that adaptor is "keyed" to fit only one way). Place magnifier handle into adapter. It is also "keyed" and will easily "click-lock" into the base when correctly inserted. Adjust flexible arm to position lens and light as needed. Lift lock tab slightly to remove magnifier from base.

Please note:

It is recommended that the lens not be turned more than 45 degrees from center position to avoid putting excess stress on the arm and internal wiring.

Uses 2-AA batteries (not included).
