

Use our easy-to-install Flat Panel TV Cable Organizer Kit with Power Solution to install power and hide unwanted audio/video (A/V) cables in the wall behind your flat panel TV. This kit brings a clean, professional image to your at-home installation.

Since this kit does not connect to your home's existing wiring, there is no contact with live electrical circuits. To install, connect the two Recessed Cable Plates using the supplied electrical wire. Plug the female end of the extension cord into the Recessed Cable Plate with Straight Blade Inlet and the male end into a surge protector or power outlet. This connection will bring power to your TV or A/V equipment. See diagrams below. The Flat Panel TV Cable Organizer Kit with Power Solution comes with simple instructions for a quick and easy installation.

This kit includes:

- Recessed Cable Plate with Power Outlet
- Recessed Cable Plate with Straight Blade Inlet
- 6 Ft. Extension Cord
- Two (2) Old Work Electrical Boxes
- 8 Ft. of Non-Metallic Electrical Wire
