

Pioneer

DMH-WT86NEX

10.1" - Amazon Alexa, Android Auto™, Apple CarPlay®, Bluetooth® - Multimedia Digital Media Receiver

- ◆ 10.1" Floating Display
- ◆ I-DIN Chassis
- ◆ HD Screen
- ◆ Amazon Alexa Built-in
- ◆ Apple CarPlay® (Wired, Wireless)
- ◆ Android Auto™ (Wired, Wireless)

Pioneer's NEX or Networked Entertainment eXperience line of receivers features an innovative and powerful new user interface that is responsive and highly customizable. The NEX models are designed especially for today's smartphone driven lifestyle.

FEATURES

Apple CarPlay® split-screen support

If you've ever wanted to control two apps simultaneously when using Apple CarPlay®, get excited for Pioneer's first feature-driven "over the air" software update, highlighting split-screen mode for select NEX in-dash receivers. *

Apple CarPlay® can do a lot more than just deliver driving directions. Split-screen mode enables you to simultaneously display and control both the Apple CarPlay® UI and the receiver's menu for your secondary source at the same time, on one screen. This function is useful when you want to access your music content (i.e., HD Radio or USB) while navigating through Apple CarPlay®, without having to toggle back and forth.

Pioneer's intuitive split-screen mode also allows different configurations you can switch between by tapping the switch key icon. Display your current or last app in full screen, view several apps in split-screen mode, or view the home screen with access to all your apps.

Learn more by about Apple CarPlay split-screen support by clicking [here](#).

Floating Display

The all new DMH-WT86NEX floating display configuration allows a large display to be installed using a universal I-DIN chassis. The floating screen offers horizontal, vertical and tilt adjustability to ensure the best fit and usability in the vehicle's dash.

Alexa Built-in

The DMH-WT86NEX in-dash receiver features the latest automotive connectivity solutions, including Amazon Alexa Built-in. With Alexa,

users can talk to Amazon Alexa directly through the Pioneer DMH-WT86NEX receiver. With Alexa, you can ask to play music, hear the news, check the weather, control smart home devices², and more. Alexa lives in the cloud, so it's always getting smarter, adding new capabilities that are delivered to compatible devices automatically. Using Alexa with the Pioneer units is simple and hands-free – just ask, and Alexa will respond instantly.

Visit www.pioneerelectronics.com/PUSA/Car/Alexa to learn more including the latest features, apps, and language support for Alexa compatible Pioneer in-dash receivers.

Wireless or wired, the choice is yours

The DMH-WT86NEX supports a cable free connection between your smartphone and the receiver using Wi-Fi® wireless connectivity.

Now compatible with both Android Auto Wireless (available on Google Pixel and Nexus devices)¹ and Android Auto over USB, the DMH-WT86NEX makes it easier than ever to connect. Android Auto¹ makes it easier to access your favorite navigation, media and communication apps on the road while minimizing distractions.

Compatibility with Apple CarPlay® supports connecting to an iPhone® device using either a wireless connection or a wired USB connection.

Now you no longer need to worry about taking your smartphone out of your bag or your pocket before you get into your car.

android
auto

Android Auto

This receiver also features Android Auto, which extends the Android platform into the car in a way that's purpose-built for driving. Android Auto

automatically brings you useful information and organizes it into simple cards that appear just when they're needed. It's designed to minimize distraction so you can stay focused on the road ahead. Android Auto is compatible with Android phones running Android 5.0 (Lollipop) or later. Android Auto may not be available on all devices.

Works with
Apple CarPlay

Apple CarPlay

This receiver features Apple CarPlay, the smarter, safer and more fun way to use your iPhone® in the car. Apple CarPlay gives iPhone

users an incredibly intuitive way to make calls, use Maps, listen to music, and verbally send and listen to messages with just a word or a touch. Apple CarPlay requires iPhone 5 device or newer with the latest version of iOS.

CarAVAssist

The Pioneer DMH-WT86NEX in-dash receiver is compatible with the CarAVAssist App which supports web browsing, home screen customization and other functions. You can bookmark websites that you want to enjoy in your car, register your favorite sports teams to receive real-time game updates, make notifications settings for your smartphone, and more. The app also allows you to customize your receiver's home screen, including adding your own background image, and easily performing OTA Firmware Updates. Visit www.pioneerelectronics.com/CarAVAssist for a list of all compatible models.

CAUTION: Read the operation manual as well as all instructions and cautions before use. Pay attention to the road, limit glances to the device, and do not use any feature if it cannot be operated both safely and legally in your location and environment. Distracted driving may result in serious injury, including death.

Rear visibility systems (backup cameras) are required under federal regulations in certain new vehicles according to a phase-in schedule that began on May 1, 2016. Owners of vehicles equipped with compliant rear visibility systems should not install or use this product in a way that alters or disables that system's compliance with applicable regulations. If you are unsure whether your vehicle has a rear visibility system subject to these regulations, please contact the vehicle manufacturer or dealer.

Android Auto requires the Android Auto app on Google Play. Additional apps may be required for connected home status and control. Standard text messaging rates apply. Visit support.google.com/androidauto for more information.

Apple CarPlay requires iPhone 5 or newer with the latest version of iOS. Either "Made for iPod" or "Made

for iPhone" means that an electronic accessory has been designed to connect specifically to iPod or iPhone and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Operations and functions may vary depending on iOS device or receivers.

Bluetooth functionality requires a compatible Bluetooth-enabled mobile phone. Certain Bluetooth features may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices or by certain wireless carriers.

Not every USB device is compatible with a Pioneer headunit containing a USB port. For size and other limitations, please see Owner's Manual. Unauthorized copying of music or other files is strictly prohibited.

SiriusXM Radio is a subscription service not affiliated with Pioneer - service is available only in certain locations within the continental U.S. More information is available at www.siriusxm.com. Connected services require connection to a wireless network via a compatible iPhone or Android smartphone device. Ability to use such services will depend on network availability. If your data plan does not have unlimited data, charges from your carrier may apply. Availability of non-Pioneer content and services, including apps and connectivity, may change without notice due to changes in operating systems, firmware or app versions; changes to, restrictions

on or discontinuation of the service or service plans; non-Pioneer hardware changes; or other events.
