

**DELUXE VLOGGER KIT**  
SMARTPHONE VLOGGING SETUP

**USER MANUAL**

- 1 LED Video Light
- 2 Microphone
- 3 Bracket
- 4 Color Diffuser (Red)
- 5 USB charging cable (LED Light)
- 6 PhotoAction camera mount
- 7 2 Cold Shoe mounts
- 8 360° Ball Head
- 9 Tripod
- 10 Remote
- 11 Storage Bag

**PRODUCT PARTS INTRODUCTION**

**HOW TO OPERATE FOR ACTION CAMERAS**

1. Rotate Action Camera to top of PhotoAction Camera mount and use locking screw (located inside tripod leg) to secure Action Cam in position.

2. Connect Microphone plug to Action Camera's 3.5mm aux/audio port. Set switch on Microphone to "Camera" mode. Once red light indicator appears on Microphone it's ready for use.

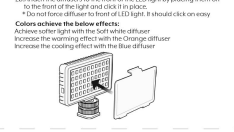

**HOW TO OPERATE**

1. Turn On / Off: Longpress the "On/Off" button for about 2 seconds to turn LED light on or off. If light does not turn on, please check USB Charging Cable provided.

2. Using the Color Diffusers: Important: Please only attach diffusers on to light in "Off" mode.
  - 1) Adjust the light temperature with colorhead buttons Soft/White/Orange/Blue.
  - 2) Attach the diffusers to the front of the LED light by placing them on all 4 corners of the light and stick it in place.
    - \* Do not force diffuser to front of LED light. It should click on easy.

**HOW TO SET UP**

1. Remove PhotoAction Cam mount from inside tripod leg and put to the side for use in step 5. To remove: Open tripod legs and look for mount on wheels below. Pull bottom clamp out of mount, grab by fingertips and pull outward.

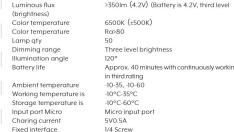

**HOW TO SET UP**

3. Open up tripod legs by pulling each leg outward and place on flat surface, tighten rotating knob.

**HOW TO SET UP**

5. Attach PhotoAction Cam mount to Bracket. Pull out top and bottom clamps from mount and screw into bracket in clockwise direction. Tighten firmly.

**HOW TO SET UP**

6. Insert Microphone into Bracket. Insert battery into Microphone:
  1. Remove the battery cover.
  2. Insert the CR2 battery. Make sure the positive and negative positions correctly.
  3. Close the battery cover.

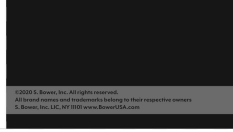

**HOW TO OPERATE FOR SMARTPHONES**

1. For Smartphone use, set the Microphone switch to "Phone" mode. Once connected to a smartphone the phone will power the microphone and the Red light will activate. When the Red light appears, microphone is ready for use. Do not switch to Camera mode when attached to phone mode.

**HOW TO OPERATE**

3. Connect the two exposures 3.5mm audio jack to your smartphone's 3.5mm aux/audio input port. Microphone is ready once red light appears on the microphone's control panel.
