WiFi 6E Offers Maximum Speed for the Most Devices

Linksys Hydra Pro WiFi 6E Mesh System is our latest router to utilize the 6 GHz band for nearly limitless bandwidth. Its true tri-band performance delivers crystal-clear signal and ultra-fast WiFi speeds that have all your devices covered, including the latest AR and VR consoles. More than 55 devices can be on each node in the system, so everyone can stream, game, and conference without interruption.

Features and Benefits

- **A New Band for Your Latest Devices**
The 6 GHz WiFi band offers crystal-clear signal, and up to 5x faster speed* for AR and VR devices, and video conferencing.
- **Powerful WiFi 6E Mesh Coverage**
Intelligent Mesh™ technology combined with WiFi 6E is designed to deliver gigabit WiFi speeds to every corner of your home or business.
- **Highest Device Capacity Ever**
With 4x* the channels of current WiFi systems, the 6 GHz band can handle all the traffic from the busiest smart homes using heavy-bandwidth devices all day, every day.
- **Industry-Leading Technology**
An advanced Qualcomm™ chipset delivers the ultimate WiFi 6E experience. This next-generation technology transforms home and business WiFi with its wire-like stability and blazing-fast performance.
- **Ultra-Fast Multi-Gigabit Speed**
With a 5 Gbps WAN port, you can experience multi-gigabit speed throughout your home for smart TVs, streaming devices, gaming consoles, VR and AR, and more.
- **Easy Setup, Easy Control**
The Linksys app makes setup simple. Once set up, you can access your network from anywhere, and view or prioritize which connected devices are using the most WiFi.
