

HYPERGEAR

SoundRecon

RGB LED Gaming Headset

Bring immersive audio reinforcements to your game and light 'em up. The SoundRecon headset amplifies your loadout with full-spectrum 3D directional audio, long-wear comfortability, and dynamic RGB lighting. Custom-tuned 40mm neodymium drivers put you in the middle of an immersive soundscape that lets you hear your enemies before they even see you, and the noise-rejection microphone picks your voice up loud and clear for in-game and online chat. The 230g recon-weight build is outfitted with 7-color breathing LEDs built into the ear cups, heat-dispersing synthetics, and ultra-soft memory foam core padding to keep you comfortably geared up for the marathon. Ready for the next mission?
