

Warranty Returns

Defective items may be returned within 30 days. However, if 30 days have passed, don't panic. Check your package—you should have received a warranty in the box. Check this warranty paper to see if you are still eligible for a replacement, even if the refund period has expired. Remember to reach out to our team before initiating any return process. Again, every situation is different, and we'd hate to see you disappointed. Let our team guide you to ensure the best outcome.
