Leaf® supreme PRO

FIRSTSTAGE AMPLIFIED INDOOR HDTV ANTENNA

65-Mile Range

A Sleek Indoor TV Antenna That Provides Remarkable Signal Range

The Leaf Supreme Pro offers powerful performance with FirstStage Amplification technology located right next to the antenna, which sets the noise floor of the digital system and mitigates the loss created by the coaxial cable. The result is less pixilation and increased reception capability. There is no need to hunt for an available wall outlet to power your Leaf Supreme Pro antenna. Just plug it into a spare USB port on your TV.

Model #: MH-110160
UPC: 855470004795

Integrated TV Signal Indicator

Features:

- Up to 65-Mile Range
- 15dB Preamplified Gain
- High VHF/UHF
- Multi-Directional
- Full 1080HD
- 4K UltraHD Ready
- 75-ohm F Connector

Integrated TV Signal Indicator

The Leaf Supreme Pro is the first of its kind! The integrated signal indicator helps you find the optimal location for signal reception – LED lights let you adjust the antenna's placement in real-time for a more stable connection. Receiving free TV is made easy with Mohu. Simply connect the antenna, turn on your TV, and scan for channels.

Based on US Military Technology

The Leaf Supreme Pro is based on the same technology designed and developed for the US Military to discreetly detect IEDs. We are proud of our military connection, and it is evident in our design, quality, and stability.

Highest Quality, Sleek Design, Easy Installation

The Leaf Supreme Pro includes a 16 ft. high-performance detachable coaxial cable, giving users the flexibility to place the antenna much higher on a wall or on a window for optimal reception. This antenna is also paintable and reversible to match home decor, and much easier on the eyes than a traditional antenna. Setup is easy - simply connect the antenna, scan for channels, and enjoy free TV.
