

Hyperview

Auto-Tracking Mount

Turn your phone into a tracking cameraman! Get freedom of movement during your vlogs, live streams, and online conferences with the HyperView Auto-Tracking Mount. Scan the QR code on the box or download the Souing app from your phone's app store to connect with the mount via Bluetooth and enjoy intelligent automatic tracking while using your favorite apps. The mount easily holds the largest smartphones and bulkiest cases with an adjustable universal phone holder while easily tracking you in portrait or landscape. Be captured from every angle as the mount rotates 360° while locking onto your face. Capture every moment with the HyperView!
