

FRX3+

Be Prepared & In Charge.

The **FRX3+** has several options; solar, hand turbine or DC input ensures you're always prepared. More than a preparedness radio in addition to 24/7 weather ALERT updates for your area it is also a portable smartphone charger and LED flashlight. Be ready for anything.

Keep your household prepared with the FRX3. The hand turbine rechargeable FRX3+ is a preparedness radio with AM/FM, all seven NOAA (National Oceanic and Atmospheric Administration) weather band stations and the "Alert" system. When the "Alert" function is on, the radio will automatically broadcast emergency weather alerts for your area such as hurricanes, tornadoes and severe storms. Spin the hand turbine for one minute to get 10-15 minutes of radio and flashlight use or place the FRX3 in the sun for a passive charging option.

Crank-Powered, Rechargeable Weather Radio with Flashlight

CHARGING YOUR MOBILE DEVICE

The FRX3+ also serves as a renewable power source for your other critical devices because of its USB smartphone charger. Simply plug in your phone into the USB port and power will automatically “dump charge” to your phone, just like plugging into the wall. There are many products out there that have a USB cell phone charger, but most don’t have the capability to charge a smartphone like the FRX3+. With a 2600 mAh rechargeable battery, the FRX3+ provides 1.5 charge for most smartphone.

SOLAR PANEL AND GLOW-IN-THE-DARK LOCATOR

This radio has a glow-in-the-dark locator so you can find it easily at night plus a LED flashlight and red flashing beacon for emergencies. Just sit back and let the sun do the work with the integrated solar panel.

ADDITIONAL FEATURES
