

# TECH SPEC

|                            |                           |                        |
|----------------------------|---------------------------|------------------------|
| <b>Product Information</b> | Model Name                | S.T.R.I.K.E. 6         |
|                            | Model Number              | KS63NMUSBL000-0        |
|                            | Keyboard Type             | Mechanical 61 keys     |
| <b>Switch</b>              | Type                      | Mad Catz RED           |
|                            | Switching characteristics | Linear                 |
|                            | Trigger Depth (Actuation) | 2mm                    |
|                            | Distance Travel           | 4mm                    |
|                            | Operation Force           | 45cN                   |
|                            | Duration                  | 80M                    |
| <b>Design</b>              | Color                     | Black                  |
|                            | Anti-Ghosting             | 61 Keys                |
|                            | Lighting Type             | RGB 16.8 million color |
|                            | Lighting Effects          | 14                     |
|                            | Cable Length              | 1.8M                   |
|                            | Weight                    | 540g                   |
|                            | Dimension (L x W x H)     | 219.5 x 101.5 x 37.9mm |
| <b>Compatibility</b>       | System Requirements       | Windows® 8, 8.1, 10    |
