## FIRSTSTAGE AMPLIFIED INDOOR / OUTDOOR HDTV ANTENNA

### 75-Mile Range

#### Mohu's Latest Antenna Innovation – the Sail Outdoor TV Antenna

The Mohu Sail is a versatile and strong outdoor TV antenna. It boasts a 75-mile range and you can place it in an attic, atop a roof, on outdoor siding, or indoors. Amplified with FirstStage technology, the amplifier is located right next to the antenna. This design sets the noise floor of the digital system and mitigates the signal loss created by the coaxial cable.

Model #: MH-110020  
UPC: 855470004139

#### Features:

- Up to 75-Mile Range
- 15dB Preamplified Gain
- High VHF/UHF
- Multi-Directional
- Full 1080HD
- 4K UltraHD Ready
- 75-ohm F Connector

#### A Sleek Attic/Outdoor TV Antenna That Provides Remarkable Signal Range

The Sail offers powerful performance with FirstStage Amplification technology located right next to the antenna, which sets the noise floor of the digital system and mitigates the loss created by the coaxial cable. The result is less pixilation and increased reception capability. There is no need to hunt for an available wall outlet to power your Sail antenna. Just plug it into a spare USB port on your TV – or if you don't have any to spare, you can use the included USB power adapter.

#### Highest Quality, Sleek Design, Easy Installation

The Sail offers powerful performance with FirstStage Amplification technology located right next to the antenna, which sets the noise floor of the digital system and mitigates the loss created by the coaxial cable. The result is less pixilation and increased reception capability. There is no need to hunt for an available wall outlet to power your Sail antenna. Just plug it into a spare USB port on your TV – or if you don't have any to spare, you can use the included USB power adapter.

Dimensions: 13.5"H x 23"W x .5"D  
Weight: 4.85 lbs.
