

# arc PRO

## FIRSTSTAGE AMPLIFIED INDOOR HDTV ANTENNA

### 60-Mile Range

#### Best Amplified Indoor TV Antenna for Design-Conscious Cord-Cutters

The Arc Pro offers powerful performance with FirstStage Amplification technology located right next to the antenna, which sets the noise floor of the digital system and mitigates the loss created by the coaxial cable. The result is less pixilation and increased reception capability. There is no need to hunt for an available wall outlet to power your antenna. Just plug it into a spare USB port on your TV.

Model #: MH-110161  
UPC: 855470004726

#### Features:

- Up to 60-Mile Range
- 15dB Preamplified Gain
- High VHF/UHF
- Multi-Directional
- Full 1080HD
- 4K UltraHD Ready
- 75-ohm F Connector

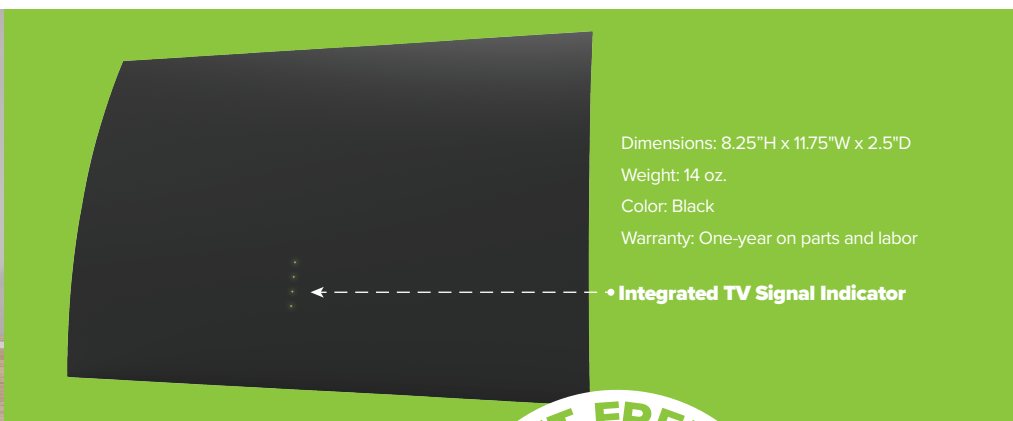

#### Integrated TV Signal Indicator

The Arc Pro is the first of its kind! The integrated signal indicator helps you find the optimal location for signal reception – LED lights let you adjust the antenna’s placement in real-time for a more stable connection. Receiving free TV is made easy with Mohu. Simply connect the antenna, turn on your TV, and scan for channels.

#### Highest Quality, Sleek Design, Easy Installation

The Mohu Arc PRO completely transforms the typical indoor antenna. This antenna provides a fresh look while giving you the same top performance as our leading Leaf antennas. The design of the Arc PRO provides both form and function – so you can proudly showcase your antenna in your living room. Setup is easy – the base stand also includes convenient, built-in keyholes to hang the antenna on your wall. Simply connect the antenna, scan for channels, and enjoy free TV.
