60 MILE
RANGE
AMPLIFIED
INDOOR HDTV
ANTENNA

enjoy
TV AGAIN

Sometimes you need a boost, sometimes you don't – get the best of both worlds. The Mohu Curve antenna offers 60-mile range with new and improved amplification from the Jolt Switch in-line USB amplifier. The Jolt Switch is an all-in-one solution providing 18 dB of amplified gain in real time at the simple flip of a switch. When it's ON, you get clear, efficient TV signal boost, sometimes turning in channels beyond your antenna's standard range. When it's OFF, the signal easily bypasses the amplifier while still benefitting from protection and filtering from FM and RF signal interference. Elegant, contoured features with warm grey finish on the outside encase advanced antenna technology on the inside, where multi-directional UHF and Hi-VHF elements offer crystal-clear reception from the front and back of the antenna. Designed for efficiency, high-performance coaxial cable is attached to the antenna for optimal function and fewer opportunities for signal interruption. **Enjoy watching free broadcast TV channels with the next generation of indoor TV antennas. 📺**

Everything you want in an indoor TV antenna

- Warm grey finish and a contoured design that complements modern interiors
- Jolt Switch in-line amplifier all-in-one solution provides real-time amplification with simple ON/OFF switch
- Adaptable antenna stand can be used for placement on a flat surface or use the keyholes to hang
- Multi-directional UHF and Hi-VHF elements specifically tuned to the frequencies broadcast in North America receive TV signals from both sides of the antenna
- Engineered using technology developed in the U.S.A.
- Full HD 1080p, 4K, 8K UHD, and NEXTGEN TV compatible

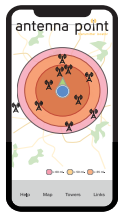

Model: CURVE
UPC: 817848012382
Range: 60 Miles
Location: Indoor
Style: Multi-Directional

Frequencies:
UHF 470-608 MHz
Hi-VHF 174-216 MHz
Amplifier Gain: 18 dB

Assembled Dims: 8.25" H x 11.75" W x 2.5" D
Weight: 14.4 oz.

Color: Grey
Includes: 10 ft. high-performance coaxial cable, Jolt Switch in-line amplifier with 6 ft. USB cable, antenna stand with keyholes

Warranty: One-year antenna warranty / 90-Day accessory warranty

JOLT SWITCH

BETTER BOOST, BETTER SIGNAL

The Jolt Switch is an all-in-one solution providing real-time amplification. Switch **ON** for clear, efficient TV signal boosting. Switch **OFF** to easily bypass the amplifier while still benefiting from RF signal filtering.

PERFORMANCE AND STYLE

Thanks to elegant design on the outside and advanced technology on the inside, your antenna can be just as sharp as the crisp HD picture it delivers to your TV.

MULTI-DIRECTIONAL

UHF/Hi-VHF multi-directional elements receive TV signals from the front and the back of the antenna.

SMALL AND MIGHTY

Enjoy watching free broadcast TV channels with the Mohu Curve. Easy, low-profile setup makes this antenna perfect for city, suburban, or single-TV homes and compact living spaces like dorms and apartments.
