INDOOR COMFORT INDICATOR

The Indoor Comfort Indicator is based on your Indoor Humidity. The arrow will indicate comfort level.

Too Dry	10% - 25%
Dry	26% - 39%
Comfort	40% - 75%
Wet	76% - 83%
Too Wet	84% - 99%

SETTINGS

1. Hold the ✿ button to enter the Settings Menu.
2. Use the + or - button to adjust values.
3. Press the ✿ button to confirm and move to next item.
4. Press the ⚠ button anytime to exit.

Settings Menu Order:
- Greeting "Hello, Set up time"
- Language (English | Español | Français)
- 12/24 Hour Time
- Hour
- Minutes
- Year
- Month
- Date
- Date/Month or Month/Date
- Fahrenheit/Celsius
- Thank You

Greeting: The "HELLO, SET UP TIME" message will automatically appear when the unit is first powered on, an indication to adjust your settings.

Language: Whichever language is selected, the following instructions and weekday will be presented in that language.

Weekday: The Weekday will set automatically when your Year, Month and Date are set.

TEMPERATURE/HUMIDITY ALERTS

1. Hold the ⚠ button to enter the Alert Settings.
2. Use the + or - button to arm or disarm an alert.
3. When the alert is ON, the alert value will flash. Use the + or − button to set your custom alert value.
4. Press the ⚠ button to confirm and move to next item, or exit.

- When an alert value is reached, the station will beep 5 times every minute, until the value is out of the alert range.
- Press any button to stop the alert from sounding.
- The flashing alert icon will indicate if it is a LO or HI alert.

Alert Icons:

| HI Alert Active	LO Alert Active	HI /LO Alert Active

HI/LO RECORDS

Press the HISTORY button to view your HI and LO Temperature and Humidity Records, Heat Index and Dew Point.

Reset HI/LO Records (each will reset individually):
1. Press the HISTORY button to view individual readings.
2. Hold the MINUS (-) button to reset an individual record.
3. Your HI/LO record will reset to the current reading, with current time and date stamp.

FORECAST ICONS

Your station uses changing atmospheric pressure to predict weather conditions for the next 12-hours. The Arrows indicate Pressure Tendency (rising, falling).

BUTTON FUNCTIONS

The Buttons are located on the front of your Weather Station.

⚙	Hold to enter Settings Menu.
✚	Press to increase values in setting menus. In Alerts Mode press to arm or disarm alert. Hold to search for Outdoor Sensor.
HISTORY	Press to view HI/LO Temperature/Humidity Records, Heat Index and Dew Point Temperature.
━	Press to decrease values in setting menus. In Alerts Mode press to arm or disarm alert. Hold to delete HI/LO Record.
⚠	Hold to enter Alert Settings. Press to exit setting modes.

OUTDOOR SENSOR RECEPTION

• If sensor loses connection to your station, **NO** will show in the outdoor sensor area after 30 minutes.
• Your station will search 3 minutes every hour to reconnect with your sensor. While searching, **dashes** will show in the outdoor sensor area, and the Sensor Reception Icon ⊿ will flash.
• Hold the PLUS (+) button 3 seconds to manually search for the outdoor sensor.

RESTART

When the outdoor readings show NO and searching for the sensor has not helped, complete a full restart:
• Bring the sensor in the house about five feet from the station.
• Remove batteries from the sensor, and from the station.
• Press any button 20 times.
• After 15 minutes, insert batteries into the sensor, and into the station.
• Wait another 15 minutes to establish a strong connection. Place sensor outside in shaded location.

SENSOR WEATHER SHIELD*

• The Sensor Weather Shield is designed to protect your outdoor sensor from rain and snow.

• This shield will offer limited protection from the sun's heat.

• Optional purchase at: bit.ly/925-1418

• Ensure the batteries have with correct polarity (+ / -).
• Remove batteries from equipment that will not to be used for an extended period.
• Promptly remove expired batteries.

FCC STATEMENT
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Increase separation between equipment & receiver.
• Consult the dealer or an experienced radio/TV technician for help.
This device must not be co-located or operating in conjunction with any other antenna or transmitter.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

CAUTION!

⚠ **WARNING:** This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to: www.P65Warnings.ca.gov
