Web Product Name

VTech Premium Portable Bluetooth and USB C compatible, 6 Mic Conference Speakerphone with 24 hour talk time for Home, Office or Travel VCS601

Web Description

The VTech Bluetooth Conference speakerphone offers quick and easy connection to your smartphone, tablet or laptop to meet your communication needs. The speakerphone includes six microphones to provide true 360° coverage to ensure users are heard from every angle and distance, while the echo cancellation helps to eliminate background noise and ensure crisp, clear communication. The large 3W speaker provides a premium sound performance for listening to music while you work, or taking that important audio or video conference call. The built-in 5200mAh battery supports up to 24 hours of talk time and doubles as a USB power bank so you can keep your smart devices charged while on the go.

Web Features

- Instant Setup - Connects to your smartphone using Bluetooth/NFC or to your computer using the included USB-C cable without the need install drivers.
- Premium Audio Performance - Advanced acoustic echo cancellation and noise reduction coupled with a premium hi-fidelity speaker allows for rich, crystal clear, full-duplex communications even in noisy environments.
- 360° Voice Localization - The integrated 6-mic array with voice localization LED indicator provides 360° voice coverage allowing you to turn any room into a conference space.
- Built-in High Capacity Battery - An integrated high capacity 5200mAh battery provides up to 24 hours of talk time, or allows you to charge your smart devices while you're on the go.
- Full Duplex Speakerphone - Enjoy a speakerphone that can keep up with your calls. Increase participation by allowing both ends to speak and be heard at the same time, for conversations that are more true to life.
- Great for the whole family - Enjoy a family video call where everyone can hear and be heard clearly, even when people are talking at the same time.
- Siri®, S Voice® and Google Now™ access - A press and hold of the phone key allows you to evoke the voice services on your smartphone so you can initiate cellular calls using your voice.
