Seamless macOS Integration

Features

Expand your vision

Expand your vision by adding the finest duo monitors to your laptop. Monduo 14 Inch Pro Duo is the worlds first 14-inch tri-monitor setup with 2K resolution and 500 nits of brightness. Designed for Professionals, Gamers and Creators.

Color and Clarity

Monduo 14 Inch Pro Duo displays are 100% DCI-P3 wide color gamut that minimizes colors shift and delivers clear and detailed imaging.

Pro in Productivity

With up to 200% more screen space, the Monduo Displays elevate productivity to new heights for professional workflows. By incorporating dual monitors to your existing laptop, individuals can now travel anywhere with unparalleled efficiency and productivity, redefining the way work is accomplished.

Super Smooth 144 hertz Display

Immerse yourself in ultra-smooth and seamlessly fluid gaming visuals clocked at 144Hz, providing you with a distinct advantage in first-person shooters, racing games, real-time strategy, and sports titles.

Immersive 7K Gaming Anywhere

Leveraging the power of the latest Nvidia RTX or AMD Radeon laptop GPUs, achieving 7K gaming has never been as immersive. By setting up the Monduo Displays and employing a triple-monitor configuration, you'll be drawn deep into the game world with vibrant colors and astonishing detail, creating an unparalleled gaming experience.

macOS Features

Synchronized Brightness

Our seamless macOS integration offers users intricate control over all Monduo monitor's brightness settings and can automatically sync the brightness to match the MacBook Pro's built-in display, providing detailed control.

Unified UI and Resolution

The most recent Monduo drivers for macOS deliver a harmonized viewing encounter, guaranteeing that the User Interface on the Monduo monitors can be HiDPI scaled to perfectly match the MacBook Pro's built-in display.

Auto Arrange Displays

Regardless of which USB-C port on your MacBook Pro you connect to the Monduo display, the Monduo App will automatically arrange the Monduo monitor to its designated position alongside your MacBook Pro.
