AC-LGD Quick Reference Guide

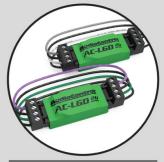

AudioControl LGD's install in-between the factory signal source & the aftermarket equipment's inputs, making them simple to install, and an inexpensive way to ensure your OE integration installation performs the way it should!

AC-LGD60 for 2018+ vehicles
WITH AMPLIFIED OEM systems

AC-LGD for 2005-2015 vehicles
ALL MAKES/MODELS

AC-LGD20 for 2018+ vehicles W/O AMPLIFIED OEM systems

#### Common examples of vehicles that benefit from LGD's:

- Toyota
- Dodge/Ram
- Honda
- Ford

- Chrysler
- vsler Alfa Romeo
- Fiat
- Harley-Davidson

- leen
- Subaru with STARLINK •
- GM
- Maserati

Today's factory sound systems include more Class D amplifier technology which can mute, distort or emit damaging frequencies to your new aftermarket audio equipment when the factory system no longer senses an impedance load present on its outputs. Using carefully selected resistors and a Zobel Network (AC-LGD), the AC-LGD series has been designed to generate load and stabilize signal from the factory system to ensure the best possible audio.
