ClearDryve®

Superior headphones/headsets for drivers

Beyond plush comfort and superior design, ClearDryve® first and foremost is about sound:

- When used as a Bluetooth® headset, ClearDryve's remarkable microphone boom digitally suppresses more than 90% of ambient noise – so callers on the other end only hear crisp, clear calls.
- The advanced technology behind ClearDryve's active noise cancellation ensures a premium stereo headphone experience through the ear cups, eliminating the need to "crank up the volume" to drown out ambient noise.
