# What's included

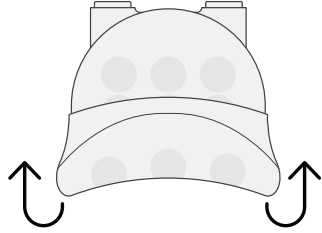

Please ensure battery is inserted into the Padlock and Torx cap is in locked position with the battery cover closed before putting on the Silicone Case.

# Retained Shackle Configuration

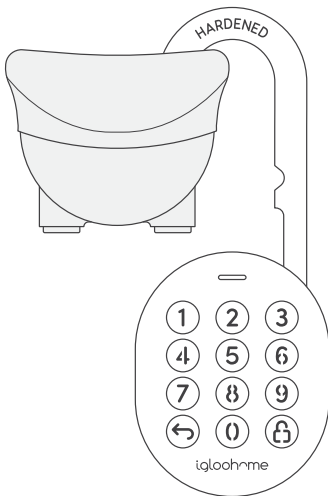

- 1 Unlock the Padlock and pull the shackle to open position.

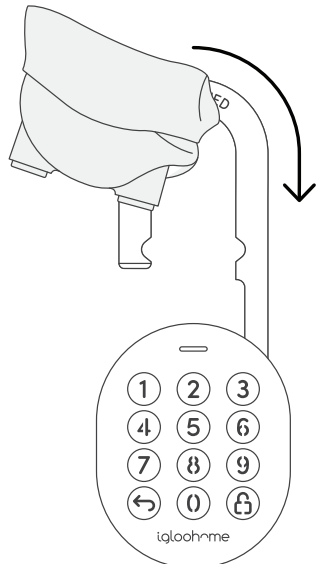

- 2 Fold the silicon case inside out to prepare for setup.

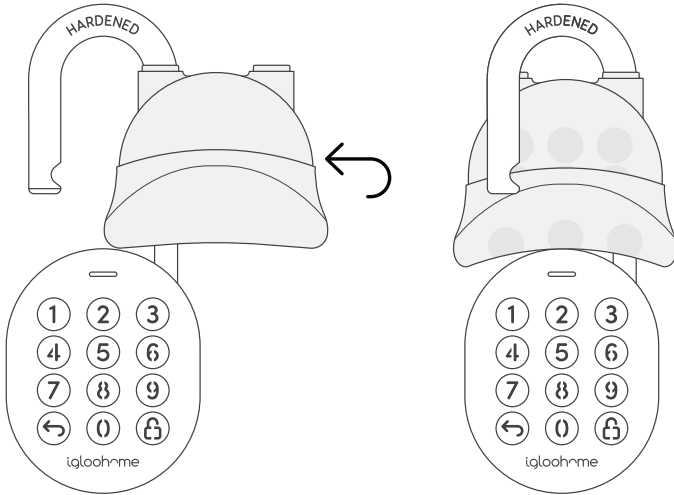

- 3 Insert the case through the shackle.

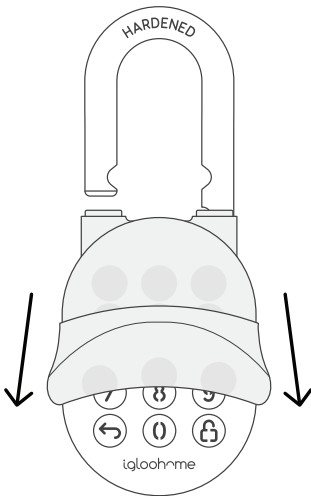

- 4 Loop the case through the shackle.

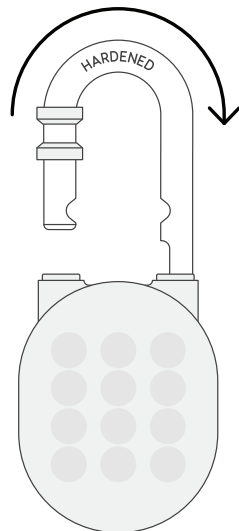

**5** Rotate the case so the orientation is correct.

**6** Pull and fold the silicon case down to ensure it covers the whole padlock.

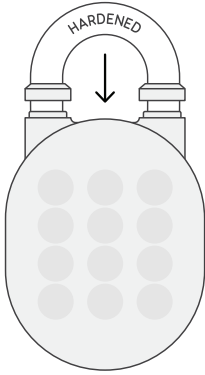

**7** Loop the Silicon caps into the shackle with the correct orientation

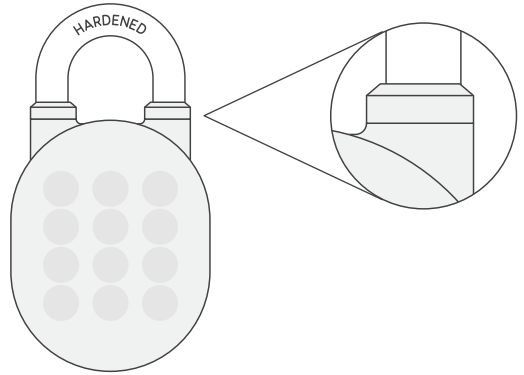

8

Push in the shackle into the padlock

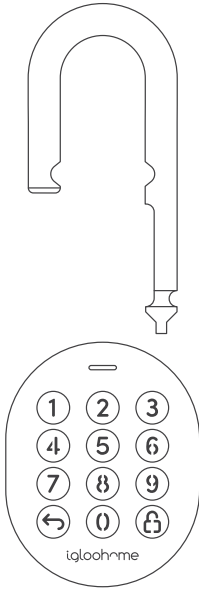

9

Adjust the Silicon caps so it fits firmly without gaps between shackle caps & case onto the case shackle hole

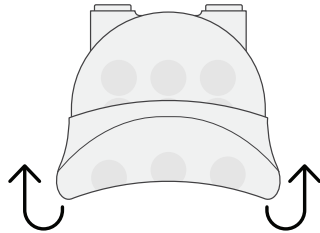

# Removable Shackle Configuration

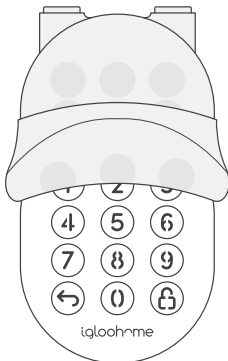

**1** Unlock padlock and remove the shackle

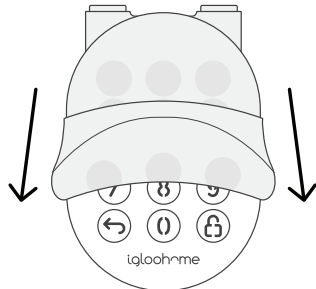

**2** Fold the silicon case inside out to prepare for setup

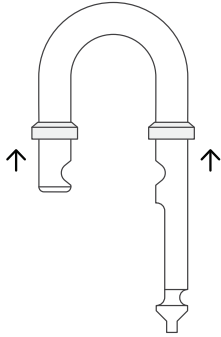

**3** Insert the case from the top of the padlock

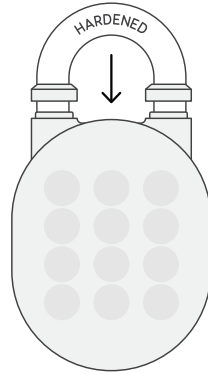

**4** Fold the silicon case down to ensure it covers the whole padlock

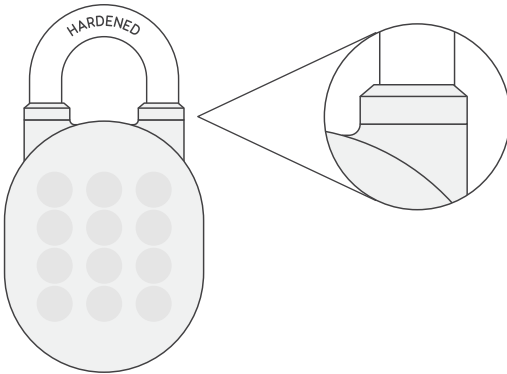

- 5** Loop the Silicon caps into the shackle with the correct orientation

- 6** Insert the shackle into the padlock

- 7** Adjust the Silicon caps so it fits firmly without gaps between shackle caps & case onto the case shackle hole
