

We believe that everyday wellness should be easy. What's easier than pressing a button and improving your air quality? Oh, and making it smell nicer to either help you wake up or wind down... yeah, we like it too.

AN AIR PURIFIER YOU CAN TRUST: THREE STAGE FILTRATION

1. PRE- FILTER captures lint, fibers, hair, and pet fur
2. H13 True HEPA Filter traps fine dust, smoke particles, pollen, and pet dander alongside 99.97% of mold and bacteria
3. ACTIVATED CARBON filters smoke, fumes, VOCs, pet smells, and cooking odors

SET IT AND FORGET IT: LED AIR QUALITY INDICATOR

So how do you know if it's working? Well, based on the surrounding air quality, the LED indicator will tell you.

GREEN: Great quality

YELLOW: Air quality that you should be mindful

RED: Poor air quality

Being aware is the first step to a better, healthier every day.

FRESH AIR, ANYWHERE: COMPACT AND PORTABLE

Take a little bubble of clean with you everywhere. The rechargeable battery lasts up to 10 hours making it travel-friendly; ready to create a clean micro ecosystem in the car, at the office, or during cafe study sessions. Breathe cleaner air on-the-go, purifying 10 cubic feet per minute.

SMELL GOOD, FEEL GOOD: FRAGRANCE DIFFUSER TRAY

Bring a bit of home on your travels by using the diffuser tray to place your favorite fragrances to fill up your space. Refresh your car as you take the kids home from soccer practice, or liven up your hotel room with some refreshing tropical scents. Your space, your mood.

QUIETLY CLEANING, SHHH: ENHANCED WITH SILENT FAN TECHNOLOGY

Wake up refreshed after a good night sleep breathing in purified clean air. We've designed our LOW setting to be quiet enough so light sleepers can hit the hay, but also have the peace of mind that the purifier is working. And if you'd like, turn it up to HIGH and the portable air purifier can substitute for a white noise machine!
