**Description**

Old toys boring your dog? Meet the easyPlay; the last pet toy you'll ever need. It will keep your pet occupied for hours at a time. Why? Because it plays back! The ball can be controlled remotely using your smartphone. So even when you're not home, you can still play with your pet! The easyPlay has a camera, mic, speaker, and even a built-in treat dispenser so that you can easily replicate live play time. If you're busy you can set it to autoplay mode with timed treats to encourage more play.
